KLAVENESS GROUP IS A CERTIFIED SUSTAINABLE COMPANY

IN SWEDEN, KLAVENESS FOOTWEAR AB
IS **SVENSK MILJÖBAS** APPROVED.

IN PORTUGAL, KLAVENESS FOOTWEAR SA
IS CERTIFIED UNDER THE **ISO 14001** ENVIRONMENTAL POLICY.
IT IS ALSO A **STEP 2 SUSTAINABILITY**
AND AN **ERASMUS+ SCILED** PARTNER.

KLAVENESS

KLAVENESS FOOTWEAR TOTAL CONCEPT

Klaveness Footwear provides footwear to specific needs with unique solutions. Customization of Klaveness Footwear is divided into different levels to target those individual needs and find the best solution!

MSS MEDICAL STOCK SHOES

Footwear with high-quality materials, depth for custom foot orthotics and easy adjusting.

Rehabilitation footwear for prevention, rehabilitation and treatment.

CMF CUSTOM-MADE FOOT ORTHOTICS

Foot orthotics can be designed to correct or accommodate to target specific needs.

FIA FOOTWEAR WITH INDIVIDUAL ADJUSTMENTS

Standard adaptations, standard lasts. Easy solutions for the most common foot problems.

OAS ORTHOPAEDIC ON ADJUSTED STANDARD LAST

Advanced adaptations, adjusted standard lasts. Solutions for more demanding feet.

OIL ORTHOPAEDIC ON INDIVIDUAL LAST

Limitless adaptations, individual lasts. Solutions for the most severe foot problems.

INDIVIDUAL FOOTWEAR

FOOTWEAR ADAPTATIONS

By using our Individual Footwear options, you can modify the footwear to your patient's requirements. We offer a full range of adaptations on all our footwear. A range of modifications to both last and styles can be done, and are categorised as below.

FIA FOOTWEAR WITH INDIVIDUAL ADJUSTMENTS

FIA footwear is made on a standard last and can have some modifications, including extra depth or width, but cannot effect the bottom shape of the last or require pattern/upper alteration.

The styles displayed in this catalogue can be modified in specific areas to achieve an optimal fit. They are available as "Recommended colour combinations" on the Online Configurator to help you through the process. Other upper material options are available online.

- Add adjustments: extra volume, heel stiffener, rocker sole, raise, wedge or flare.
- Change standard lining material.
- Choose the sole, i.e. standard PU, EVA or rubber soles; built EVA (with attached welt) or milled EVA (that allow external raise) soles.

OAS ORTHOPAEDIC ON ADJUSTED STANDARD LAST

Modifications to the last - including extra depth or width - that require an individual bottom shape, custom-made soles and pattern/upper adaptations, can be ordered as OAS.

- Select any style to match any last.
- Change uppers pattern: move instep up, move opening forward, etc.
- Add padding to vamps, quarters or full uppers.
- Standard opening or low opening can be requested.
- Raising or lowering of back height or topline.
- Opening or closing of lace gap.
- Shortening or lengthening of velcro straps.
- Moving tab position to assist foot entry.
- Re-positioning of seams to avoid problem areas of the foot.

OIL ORTHOPAEDIC ON INDIVIDUAL LAST

Some style ideas are suggested within this catalogue. However, we can make other styles to suit your patients' requests. Being the manufacturer, we can meet your requirements.

OIL includes extensive modifications to the last requiring individual bottom shape, bespoke soling and complete new patterns.

- Velcro, lace or zipper fasteners can be incorporated to the footwear.
- Shortening or lengthening of velcro straps.
- Make additions to prominent bones, etc.

WOMEN COLLECTION

The standard (FIA) configuration for each style is shown in this catalogue

All colour and material options are presented at the Materials Guide web page with detailed information

All styles in this catalogue are available as FIA, OAS and OIL

Upper and lining material samples are available on request

TIP REPLACE THE "STAY-IN" STRAPS WITH STANDARD VELCRO STRAPS

The "stay-in" straps are wider towards the end in order to prevent Velcro slipping through the roller

Upon request (OAS/OIL), we can change these "stay-in" straps to standard Velcro straps

Standard soles are pre-made soles that are compatible with Klaveness standard lasts.

You can find different characteristics in each sole-type, for example, heel height and material composition. Selecting heel height close to your lasts' heel height will give the best results!

Discover more information about lasts and materials on our web page.

The built EVA soles displayed in this chapter have 15mm heel height. Nevertheless, we can produce them to any heel height, or to fit any other specification you require.

Built EVA soles are highly versatile, as they fit all lasts, width and sizes. With built EVA soles, it is necessary to attach welt as a separate part of the construction. The welt colour is fitted to match the colour of the EVA sole.

The standard EVA is Shore ~50.

The milled EVA soles displayed in this chapter have 15mm heel height. Nevertheless, we can produce them to any heel height, or to fit any other specification you require.

Milled EVA soles are highly versatile, as they fit all lasts, width and sizes.

The sole unit is milled from a block of EVA shaped according to your requirements. When an EVA sole is milled, there is no need for a separate welt, and the wall in the milled EVA acts as a cup to conceal some of the height visible in finished footwear. EVA sole unit is produced without layers of material and glue.

The standard EVA is Shore \approx 50.

EVA, Vibram Arctic Grip

Milled EVA soles benefits:

- Conceals shoe volume by adding depth to the sole.
- No need to add a separate welt - it is milled from the same EVA piece as the midsole. Less glued layers result in a more flexible and appealing sole.
- Overall, results in a more lightweight sole.
- Adapts to any last - even with different lasts for left and right foot, you can achieve a similar design.

FITTING STOCK

Klaveness Fitting Stock is a tool used to help you determine the most suitable last and size for your patient.

It consists of an assortment of standard footwear built on all FIA lasts and delivered in the complete size range; it includes ½ pair of standard soles and a set of bottom shape patterns (in all lasts and sizes).

Find detailed information in klaveness.no, at the Downloads web page
